Dear (b)(6)

Under the provisions of Section 3.5, Executive Order 13526, a researcher has requested the mandatory declassification review of the enclosed document from our holdings. The enclosed document list identifies the requestor and the library file that contains the document.

Since your agency has equities in the enclosed material, would you please review it and make a determination whether the information can be released? Should your agency excise information from any documents, please provide the Library with appropriately marked copies. **We have already sent the enclosed document to the National Security Staff, and it has no objection to the document being released in full.** I am enclosing copies of our correspondence with the National Security Staff for your reference. Additionally, we have sent the enclosed document to the Department of State and Department of Defense for review.

Since final decision on release is the responsibility of the Library, we will notify the requestor directly and provide copies of any released records. In the event that material is excised or denied, please notify the Library of any information that the requestor may need in order to appeal your agency's decision. If an appeal results in a decision to declassify more material, please inform the Library so that we may coordinate a final decision on the release of the material.

If you have any questions about this case, please contact me at (b)(6) or by email at (b)(6)

Sincerely,

(b)(6)

Archivist
