Dear Sir:

In a facsimile dated 22 May 2007, Mr. Roger Strother, National Security Archive, requested an Executive Order 12958 (as amended) mandatory declassification review of the following: "All November 2003 memoranda sent by Bob Grenier to Director of Central (DCI) George Tenet regarding the security situation in Iraq including the November 3, 2003 memo quoted in George Tenet's book, 'At the Center of the Storm,' pp. 434-435." A copy of the correspondence is enclosed at Tab A.

We located documents responsive to the request and coordinated Document No. C01461534 with the Department of Defense (DoD). DoD responded with bracketed information for deletion and release subject to concurrent review by the Department of State, and also said the document requires review by the U.S. Central Command prior to declassification. For your information Department of State responded without objection to declassification and release.

Enclosed at Tab B is a copy of Document No. C01461534. Please review the document and let us know your review determinations, citing Executive Order 13526 exemptions claimed, and stating the current and proper level of classification. Also please return a copy of this letter with your response.
